

F9 Where predicted confidence starts to fall

a against mutation count

● MPNN supercharge (soluble)
 ■ MPNN supercharge (original weights)
 ▲ MPNN supercharge (h-bond protected)

◆ MPNN supercharge (HyperMPNN)
 ▼ MPNN supercharge (HaloMPNN)

◆ Rosetta supercharge
 ◆ Rosetta supercharge (h-bond off)
 ● AvNAPSA
 ● Random charge control

b why the absolute cutoff is scaffold-dependent
